SKILLS

Programming Language

C | C++ | Python | SQL

Web Development

HTML | CSS | JavaScript | Django | Bootstrap | React.js

Data Science

Machine Learning | Deep Learning | Data Visualization | Data Analysis

Libraries & Frameworks

Scikit-Learn | Tensorflow | Numpy | Pandas | Matplotlib | Seaborn | Django | BeautifulSoup

Others

MySQL | MongoDB | Git/GitHub | Linux | Excel | PowerBI

ACCOMPLISHMENTS

150+ Questions on LeetCode
<https://leetcode.com/11deepakv>

Gold Badge in Problem Solving & C/C++ on Hackerrank
<https://www.hackerrank.com/11deepakv>

CERTIFICATIONS

Nov 2021 - Python
Jan 2022
Certification by Simplilearn

Oct 2022 - Machine Learning
Jan 2023
Certification by Udemy

SUMMARY

A dedicated 4th year CS student, driven by my unwavering passion for technology and knowledge. My journey is marked by proficiency in programming languages including JavaScript, Python and C/C++, honed through hands-on experience. I excel in problem-solving and optimization processes, specializing in creating robust machine learning models. My adaptability and collaborative spirit make me a valuable asset in dynamic environments. Eager to continually learn, improve and gain experience while contributing to innovative technical solutions.

EDUCATION

Dec 2020 - Jun 2024	B. Tech: Computer Science & Engineering Maharishi Dayanand University Rohtak	72%
May 2020	Senior Secondary Education: Aggarwal Public School	90.6%

INTERNSHIP

Jul 2023 - Aug 2023	Data Analyst Intern Edulyt India, Remote	My internship as a Data Analyst provided me with practical exposure to real-world data analysis and its impact on decision-making. I gained technical skills, learned to work with diverse datasets.
Jun 2023 - Jul 2023	IT Trainee MRG World, Gurugram	During my training, I actively contributed to the successful deployment of FarVision software. I gained hands-on experience in configuring software modules, assisting with data migration, and providing user training.

PROJECTS

May 2022 - Jun 2023	Library Web App	A web app library is an online platform. It provides users with convenient access to the library's catalog, allowing them to search for, request & return books.
Jan 2023 - Mar 2023	E-Commerce Website	This is commercial online web application developed using Django framework using python.
Apr 2023 - May 2023	Movie Recommender System	A content based movie recommender system using cosine similarity and deployed using StreamLit.
Jun 2023 - Jul 2023	Face Mask Detection System	A machine learning Model for detecting face mask, VGG16 CNN model is used in this project.
